

wiretracks™

your home will never be obsolete again

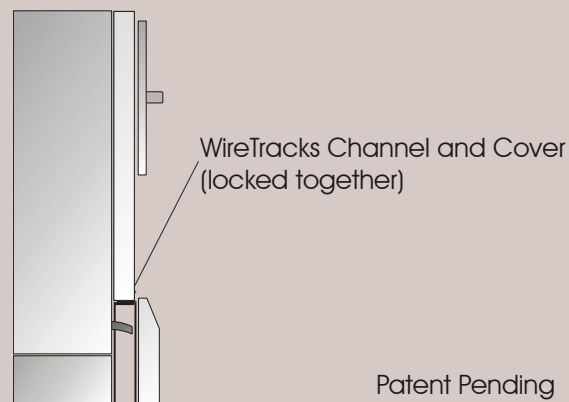

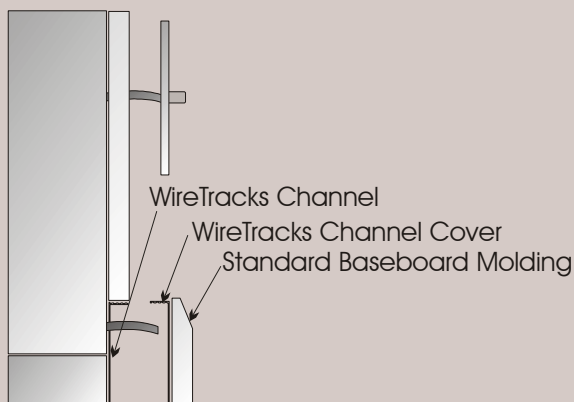

WireTracks NC (new construction)

eliminates the headaches associated with structured wiring. When installed in a new home (in conjunction with conduit), homeowners will be able to invisibly add new wiring to their homes at any time in the future.

WireTracks is a wiring channel system that protects homes against obsolescence. Most structured wiring solutions commit homeowners to one or two types of wiring. WireTracks is a Structured Channel™ system that enables you to add new wiring invisibly. So, it doesn't matter what kind of wiring is installed now, because it can always be upgraded in the future!

WireTracks consists of an interlocking wiring channel and cover that replaces part of a building's wallboard and sits between the studs and the baseboard molding. The channel attaches directly to the studs and includes cable clips to hold the wiring in place. The channel cover attaches to the baseboard molding and they become an integrated unit that can be removed and reattached any time new wiring is needed.

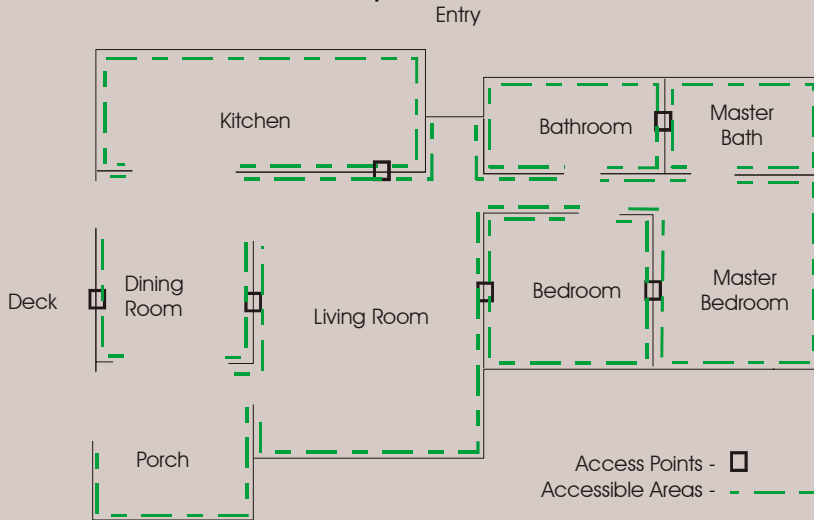

Patent Pending

Dealer inquiries are welcome.

structured channel™ solutions

The **WireTracks NC** wire channel system enables homeowners to upgrade their wiring at any time in the future without having to damage walls and enables them to add new outlets to any location with of the house with a minimal number of access points. In the following graphic, new wiring can be run to any part of the house with a minimal number of access points.

In the next graphic, most of the house can be reached with only three access points.

specifications

Material

- UL 94 Rated PVC

Dimensions

- Wallboard Shelf Height - 2 3/4"
- Channel Height - 2 1/2"
- Depth - Adjustable 1/2" to 3/4"
- Length - Available in 8' lengths

Supported Wiring

- Class 2 Data Cables

applications

Applications for WireTracks include:

- Home Theater and Stereo
- Whole House Audio
- Computer Networking and Telephones
- Alarm Systems
- Cable Television
- Smart House Technologies
- Surveillance
- Intercom Systems
- Music Equipment
- Other Specialty Wiring
